RE: Open Letter for COVID-19 Healthcare Providers from Brownsville Public Health Department

To Whom It May Concern:

This is an official letter from the City of Brownsville Public Health Department, located in South Texas. The City of Brownsville is experiencing a critical increase of COVID-19 cases. We are currently attempting to meet the needs of the demands imposed on us from citizens testing during the current COVID-19 Pandemic.

This letter is confirmation that the City of Brownsville is requesting local health providers to initiate or increase local testing, which will allow for testing at an exponential rate.

It is of the utmost importance to identify positive COVID-19 individuals in Brownsville and your assistance would greatly help to meet that goal.

Therefore, if any lab equipment or other testing methods are available for testing for COVID-19, we the City of Brownsville's Health Department endorse such efforts.

Should you have any questions or further requirements, please feel free contact me at (956) 542- 3437 ext. 6514.

Sincerely,

John Wells, MD
City Health Authority
