

Required Documents Submittal Review

City of Brownsville Planning and Development Services
1034 E. Levee St. 2nd Floor
Brownsville, Texas 78520
Telephone: 956.548.6150

*No partial submittals will be accepted.

A. Commercial - New Construction: [\(Click here for a complete Checklist\)](#)

Site Plan Review:

1a. [Application for Building Permit](#)

2a. One (1) hard copy drawing set (minimum sheet size 24" x 36" or larger; must be drawn to scale). A complete set consists of:

Site Plan Utility Plan Grading/Drainage Plan Erosion/Sediment Control Plan and Details Landscape Plan Irrigation Plan
Ensure proper signatures and seals are affixed to drawings as required by City Ordinances, State & Federal laws as applicable.

3a. One (1) CD or USB with electronic files (PDF format) of all disciplines involved separated by trade.

4a. Property Deed or equivalent showing legal description

5a. Address Letter – Contact Engineering Department, 404 E. Washington, (956)541-1012

6a. Other _____

If applicable: Topographic Survey Improvement Survey Boundary Survey

Building Plan Review:

1b. [Application for Building Permit](#)

2b. One (1) hard copy drawing set (minimum sheet size 24" x 36" or larger; must be drawn to scale). A complete set consists of drawings from all disciplines involved: Architectural, Mechanical, Electrical, Plumbing, Structural, Civil, Landscape etc. Ensure proper signatures and seals are affixed to drawings as required by City Ordinances, State & Federal laws as applicable.

3b. One (1) CD or USB with electronic files (PDF format) of all disciplines involved separated by trade.

4b. Windstorm Plan and WPI-1 form or structural drawings signed and sealed by a registered professional engineer.

5b. Property Deed or equivalent showing legal description

6b. Address Letter – Contact Engineering Department, 404 E. Washington, (956)541-1012

7b. Property tax ID number (GEO id) <http://www.cameroncad.org/>

8b. Texas Department of Licensing and Regulation AB# (If project exceeds \$50,000.) www.tdlr.texas.gov/ab/ab.htm

9b. Flood Elevation Certificate, if applicable. Properties located in Special Flood Hazard Area <https://msc.fema.gov/portal/search>

10b. Energy Conservation information and COMcheck Compliance Sheet (2009 IECC) www.energycodes.gov

11b. Other _____

B. Commercial - Additions: [\(Click here for a complete Checklist\)](#)

1. [Application for Building Permit](#)

2. One (1) hard copy drawing set (minimum sheet size 24" x 36" or larger; must be drawn to scale). A complete set consists of drawings from all disciplines involved: Architectural, Mechanical, Electrical, Plumbing, Structural, Civil, Landscape etc. Ensure proper signatures and seals are affixed to drawings as required by City Ordinances, State & Federal laws as applicable.

3. One (1) CD or USB with electronic files (PDF format) of all disciplines involved separated by trade.

4. Windstorm Plan and WPI-1 form or structural drawings signed and sealed by a registered professional engineer.

5. Texas Department of Licensing and Regulation AB# (If project exceeds \$50,000.) www.tdlr.texas.gov/ab/ab.htm

6. Flood Elevation Certificate, if applicable. Properties located in Special Flood Hazard Area <https://msc.fema.gov/portal/search>

7. Energy Conservation information and COMcheck Compliance Sheet (2009 IECC) www.energycodes.gov

8. Asbestos survey (If any demolition will be performed).

9. Other _____

C. Commercial – Repairs / Remodel: [\(Click here for a complete Checklist\)](#)

1. [Application for Building Permit](#)

2. One (1) hard copy drawing set (minimum sheet size 24" x 36" or larger; must be drawn to scale). A complete set consists of drawings from all disciplines involved: Architectural (existing conditions, demolition, proposed plans), Mechanical, Electrical, Plumbing, Structural, Civil, Landscape etc. Ensure proper signatures and seals are affixed to drawings as required by City Ordinances, State & Federal laws as applicable.

3. One (1) CD or USB with electronic files (PDF format) of all disciplines involved separated by trade.

4. Texas Department of Licensing and Regulation AB# (If project exceeds \$50,000.) www.tdlr.texas.gov/ab/ab.htm

5. Asbestos Survey (If any demolition will be performed).

6. Energy Conservation information and COMcheck Compliance Sheet (2009 IECC) www.energycodes.gov

Note: Provide if scope of work includes any modifications to mechanical/electrical systems, exterior walls or roof.

7. Other _____

* Contact plans examiner to determine if site plan submittals are required for the repair / remodel project.

**Submit a complete, assembled package that is stapled; must be drawn to proper scale.

***No further review (site plan and/or building plan review) will take place until all documents are submitted.

SITE PLANS:

The following is a general outline of drawings necessary for plan review (Building Permits and Inspections Division may request additional information if necessary).

The Site Plan shall clearly show:

- Legal description
- Intended use of land
- Physical address
- Flood zone
- City zoning use, area district and overlay (if applicable) of project site.
- Site plan shall be drawn to scale
- Designer's/ Surveyor's Name, Address, Phone Number, Fax Number and/or Email
- Project's owner, address and phone number
- Show scale of plan, vicinity map and North arrow
- Parking layout and parking calculations
- Fences: location, height, screening materials (Provide detail)
- Location of refuse collection with screening (Provide detail)
- Vision clearance at intersections (corner yard requirements) 6 feet / 36 feet
- Access: vehicular and pedestrian, driveway location(s), curb stops, parking area, circulation areas, and curb cuts (with dimensions)
- Show location of closest fire hydrant to property.
- Need to show existing conditions of adjacent properties if proposed building(s) will be built on zero lot line.
- Site Plan to include:
 - _ Bearings of all property lines
 - _ Location of all recorded easement(s) on the property
 - _ Location of the public right-of-way adjacent to the property
 - _ Dimensions for all existing and proposed sidewalks, driveways, approaches, paved areas, retaining walls, streets, curbs, and gutters
- Sidewalk plan and details
- Setbacks
- Bike rack(s)
- Accessible parking including accessible aisle and ramps
- Sign(s) on site plan, height, location(s),size and setbacks
- Utility plan to include:
 - Existing and proposed utilities
 - Meter size (Water & Electrical)
 - Existing and proposed easements
 - Show OH or UG power lines
 - Grease, Lint, sand trap and details (If applicable)
 - Construction details
- Grading and drainage plan
- Erosion and sediment control plan and details
- Landscape and irrigation plan

ADDITIONAL REQUIREMENTS:

TEXAS ACCESSIBILITY STANDARDS (TAS) REVIEW: On application to a local governmental entity for a building construction permit related to the plans and specifications, the owner shall submit to the entity proof that the plans and specifications have been submitted to the Texas Department of Licensing and Regulation (TDLR). Article 9102, Section 5(k) Senate Bill 959.

For submittal requirements, please contact TDLR:
 Website: <https://www.tdlr.texas.gov/> Phone: (800) 803-9202

COMcheck Compliance Sheet (2009 IECC), www.energycodes.gov

TEXAS DEPARTMENT OF HEALTH ASBESTOS SURVEY: On application to a local governmental entity for a building construction permit related renovation or demolition; the owner shall submit to the entity proof that an asbestos survey has been conducted. <https://www.dshs.texas.gov/asbestos/> or (888) 963-7111. Proof of Survey Form provided by Building Inspections shall be completed with permit application.

****NOTE:**

This list is made available to assist and expedite your permit. However, requirements may vary depending on each project. Permit holder is responsible for requesting and completing all required inspections. Drawings containing a label such as “not for construction” or “for pricing only” will not be accepted for permit application.

A separate permit is required for each building, including separate permits for Electrical, Plumbing, HVAC, and signs.

It is a violation of the City Code to remove/damage trees located in the city right-of-way.

No building may be occupied until a Certificate of Occupancy (CO) has been issued.

No permanent electrical service will be granted without a permanent CO. As per the City adopted Building Code, no person shall make connections to a utility, source of energy, fuel or power to any building or system which is regulated by the technical codes for which a permit is required, until released by the Building Official and a Certificate of Occupancy is issued.

Any permit becomes null and void if work or construction authorized is not commenced within 6-months at any time after work is commenced.

The examination of the submitted documents does not relieve the owner, designers, contractors, engineers, or their representatives from their individual or collective responsibilities to comply with applicable provisions of the adopted codes.

This examination by the Building Inspector or Building Official is not to be construed as a check on every item in the plans and submitted documents, and does not prevent the Building Official from hereafter requiring corrections of errors in plans or construction.
